DAVINCI
VALVES™

We Are

DAVINCI VALVES™

DAVINCI VALVES is an international company mainly specialized in valves, pipe fittings and accessories. We are a team who has dedicated its efforts and strengths to the production, marketing and development of valves, fittings, hydrants and accessories for water supply, wastewater treatment, fire protection and industrial applications all over the world.

The founder of Davinci Valves has dedicated to valves for more than 20 years, which has contributed him to obtaining professional and extensive knowledge of valves, the manufacturing techniques, the best material resources, and the global market.

After 6 years of growing and developing based out of China, Davinci Valves has accomplished many big projects with high quality products and integrated solutions for our customers worldwide. We are also a valuable supplier for worldwide. We are also a valuable supplier for years in Europe.

Along with our practices and successes in developing the business in the international market, we have now built a professional team, excellent products with highly competitive prices and reliable logistics to wherever our customer is.

DAVINCI
VALVES™

We Do

DAVINCI VALVES™

DAVINCI VALVES proudly has the capability of providing a wide range of valves with extraordinarily high quality and very competitive prices, as well as integrated solutions and services.

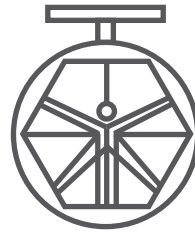

Our products vary from different types of valves, fittings and accessories applied for water supply, wastewater treatment, to fire protection, industrial and even climatic projects.

We genuinely value advices, feedbacks and requirements from our partners and customers, which is always essential to us as a significant way to reach and ensure the completion of the projects, the satisfaction of our customers, and a win-win cooperation.

Our deliveries are always punctual and reliable as to be responsive to our customers which they value greatly for their projects in hand, or as to assure our customers' requirements.

WATER series

Water is one of the most important resources for human life. With daily waste and pollution of water, we are gradually short in it. Yet, there are no alternatives to replace the significances water has for us, that is why it is of vital importance to keep as much modern and sensible water management as possible.

At **DAVINCI VALVES**, we focus on the best control and management of available resources in the most beneficial way, not only in the effective treatment of clean water or wastewater, but also in the field of irrigation applications. Our goal is to provide the best services to professionals who want more.

In our product catalogue, you can find a variety of valves for water sector such as gate valves, butterfly valves, air valves, check valves, pressure regulating valves and all the necessary fittings and accessories to complete the water or wastewater applications properly.

FIRE series

When it comes to fire controlling, **DAVINCI VALVES** always prioritizes one thing and that is every fireman greatly relies on their equipment to function properly and perfectly when needed. That's why in our fire valves catalogue, the most important things we focus on and value are the quality and the safety of the products.

Our products have easy access to maintenance and a long lifespan. We also accept special requirements according to our customers' needs. The manufacturing of our fire protection valves strictly complies with international standards and our extensive internal quality assurance system also helps to assure the quality.

In our product range, you can find the safest gate valves, post and wall indicators, swing check and butterfly valves, with UL/ULC and FM approvals.

INDUSTRY *series*

Controlling fluids like oil or other corrosive fluids in aggressive media can be very difficult if you don't count on quality products that fit perfectly for this purpose.

At **DAVINCI VALVES**, we dedicate to the best control and management of all kinds of fluids according to our customers' requirements in mining or paper industries. We have developed industrial valves such as ball valves, gate valves, complements and accessories that you can count on to develop installations such as for climatic and specific chemical projects.

DAVINCI
VALVES™

We Have

DAVINCI VALVES™

At **DAVINCI VALVES**, the materials we utilize to manufacture valves are carefully chosen based on their performances in heat resistance and pressure reaction, as well as the medium flowing through the valves, the sizes and most importantly, our customers' technical specification requirements.

The materials for most of the valve bodies that **DAVINCI VALVES** provides are three main sections: stainless steel, steel and cast iron.

a), **STAINLESS STEEL** 1.4308
(ASTM A 351 Gr. CF 8)

1.4462 (ASTM A 182 Gr. F 51)

1.4571 (ASTM A 182 Gr. 316 Ti)

1.4408 (ASTM A 351 - CF 8 M)

c), **CAST IRON**

EN-GJL-250
EN-JL 1040 / GG-25 / ASTM A 48 40 B /

EN-GJS 400-15
EN-JS 1030 / GGG-40 / ASTM A 536 Gr. 60-40-18 /

EN-GJS-400-18-LT EN-JS 1025 / GGG-40.3 /

EN-GJS-500-7
EN-JS 1050 / GGG-50 / ASTM A 536 Gr. 65-45-12 /

b), **STEEL**

Structural steel
S 355 J 2 WP / S 355 J 2; ASTM A 242 Type 1 / ASTM A 572 Gr. 50

Forged steel
P 250 GH; ASTM A 105 / ASTM A 668 Class F / ASTM A 516 Gr. 60

Welded steel

DAVINCI
VALVES™

We Test

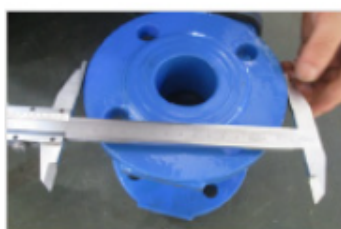

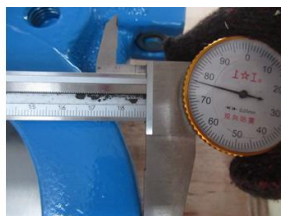

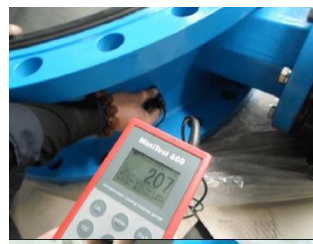

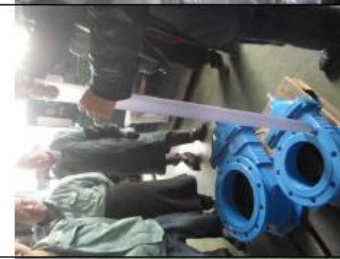

DAVINCI VALVES™

All our valves are submitted to pressure, leakage and function tests. Besides these, we also conduct testings for different specific types of valves which assure **DAVINCI VALVES** product quality, for example:

- Coating Thickness Test
- Adhesion Testing
- Impact Resistance Testing
- Porosity Testing
- Infiltration Testing
- Hydraulic testing
- Dimensional testing
- Packing

DAVINCI

We Serve

ONE TEAM, ONE DREAM.
ONE PARTNER FOR ALL YOU NEED
ONLY AT **DAVINCI VALVES**

Orders assured through additional quality control management:

With the Quality Control service, all the parameters demanded by the client are documented in details so the order is assured before shipping.

Photo Report: During the inspections a photo session is held, always within the legal scope and with respect for industry rules, which will be delivered to you on the same day.

Video Report: Likewise, short videos will be presented so you can check for your reference if the tests are conducted for your order.

Audit Report: You may choose previously or after to receive a full audit report about the quality control verification tests presented in English or Spanish.

Inspection during the Production: The comprehensive control of the manufacturing process has the highest importance. Our engineers perform the necessary controls from the selection of raw materials, the assembly of various components to the final quality assurance. We also verify through color, size, weight, strength and other requirements that may be of interest of our customers, for a sample run or for the entire order.

Inspection Pre-shipment: To ensure the international transport, the merchandise will be inspected before shipping according to the required regulations.

Inspection according to AQL: We also offer inspection services according to the AQL regulations.

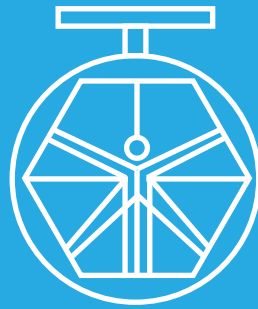

If you need specific types of testings to verify the measurements, the quantities, the weight, in addition to the testings that check both the components and the final product, this is absolutely the guaranteed service of DAVINCI VALVES, through which it is ensured that the order sent to you is the one actually contracted.

**Forwarder and Insurance Contract
Duties and Documents
Consolidation and Customization**

International trading is a complex process of resource integration, communication, energy consumption and time investment before the products are delivered to our customers. DAVINCI VALVES has devoted great efforts and time to reaching the capability of unifying and optimizing everything to complete your orders.

Choose DAVINCI VALVES as your trusted partner to manage what we are professional at for you! While we pull our full strengths to secure your products and shipping, you will have enough room and time to dedicate to matters of greater importance for your company!
